JUDGMENT

Prigozhin was genuinely in a bind and felt the need to make a bold move (47). Nuclear 37 Family-Clan indicates that he and Wagner have good relations with the State. Changing lines 3 & 4 are at the level of Wagner Command (3) and MoD command (4) with Putin at 5. 3 was challenging 4's authority. Hidden elements at play (Water below in 47) were brought out into the open (Water above in 48) actually becoming a source of well-being, so the operation was a success. This was not a coup against the State but a protest against the military High Command in Line 4. Also there were hidden elements such as the Gang of Eight meeting two days earlier and the early morning arrest of agitators in Moscow before the military convoy even got going. Whether Prigozhin knew of this or not, many others did and used that knowledge to effect a sting operation on yet others who made plans based on their own hidden foreknowledge. Somewhere in the mix was a loyal public servant (#9), a senior officer (line 4 of #9) in Prigozhin's camp reporting to the MoD High Command in Line 4 of #48. Looks like a Win-Win for Lines 3 and 4.

YI TEXTS

Wilhelm: Oppression. Success. Perseverance. The great man brings about good fortune.

No blame. When one has something to say, it is not believed.

There is no water in the lake: the image of Exhaustion.

Thus the superior man stakes his life on following his will.

Changing Lines 3,4 (Sequence change)

- 3 *Wilhelm: A man permits himself to be oppressed by stone, and leans on thorns and thistles. He enters his house and does not see his wife. Misfortune.*
Chu Hsi refers the reader to what Confucius said on it: "If one be distressed by what need not distress him, his name is sure to be disgraced; if he lay hold on what he should not touch, his life is sure to be imperiled. In disgrace and danger, his death will soon come; is it possible for him in such circumstances to see his wife?"
- 4 *Wilhelm: He comes very quietly, oppressed in a golden carriage. Humiliation, but the end is reached.*

Derived 48 The Well, Source

The Well. The town may be changed, but the well cannot be changed. It neither decreases nor increases. They come and go and draw from the well. If one gets down almost to the water and the rope does not go all the way, or the jug breaks, it brings misfortune.

Notes

- 2 lines changing (by sequence not Cast): MAN changes only, H & E stable
- 37 means there are good relations at the root of all this.
- 47 means Wagner was genuinely in distress; 48 means he went to the Source
- Lines 3 & 4 changing means Line 3 Wagner put pressure on Line 4 MoD commanders and effected some sort of switch. They took the initiative. Putin in Line 5 was not touched nor Russia's overall strategy and polity in Line 6. This was a lower level kerfuffle.
- Water goes from below in #47 to above in #48 which could mean bringing emotional turmoil out into the open – which is what happened.
- Also there are hidden elements in play. The early arrests of agitators in Moscow were victims of a Sting op? Larry Johnson says Gang of Eight briefed two days before the op.
- #47 = 51 whereas #9 and #47 are lesser numbers meaning they are BEFORE 47 in terms of causes and manifestation. This hints at hidden aspects inside being more important than outer developments. Those inside elements determined the fruition.

Summation

Prigozhin was in a real bind and felt the need to make a move (47). At the same time, the Nuclear Family 37 indicates that he and Wagner have good relations with the state. Lines 3 & 4 are at the level of Wagner Command (3) and MoD command (4) with Putin at 5. 3 was challenging 4' authority. But there were hidden elements at play (Water below in 47) which were brought out into the open (later Water above in 48) and actually became a source of well-being. So this was not an attempt at a coup but it was an attempt to shake-up the leadership in Line 4 (Shoigu et alia). Also there were some hidden elements in play such as the arrest of the early morning agitators in Moscow before the military convoy got on the move and the Gang of Eight briefing in Washington DC. Maybe Prigozhin knew of these other machinations, or maybe he didn't but others knew of his plans and used them as an opportunity for a related sting operation on others who were also planning to exploit the stunt for their own purposes. The 48 dynamic indicates that turgid elements from below in 47 were brought up into the open in 48. Wagner's dissatisfaction with Military High Command became a huge topic of conversation in Russia. And also some of the CIA-related agitator types got flushed out. Not a bad day's work!
