

2024-7-09 RFK jr Congress scenario 62-2,5 > 28 < 28

*Heaven is subtle, intimate connection; Earth is gradual progress.  
Man is riding excessive energy;  
Not a good time for rapid advancement because politically nuclear.  
Bobby should rather fly low versus seeking the highest office.  
Perhaps shoot for ministerial level position to root out corruption.  
This is a special time; perhaps in failing to reach the highest office  
help comes from the next level down, perhaps even Congress.*

## YI TEXTS: #62 Power of Small, Concentration

Wilhelm/Baynes: Preponderance of the Small. Success. Perseverance furthers.

Small things may be done; great things should not be done. The flying bird brings the message:

**It is not well to strive upward, it is well to remain below.** Great good fortune.

Legge: The image of thunder above a hill forms Small Powers. The superior man...in his conduct exceeds in humility, in mourning exceeds in sorrow, in his expenditure exceeds in frugality.

### Changing Lines 2,5

2 Wu: He passes by his grandfather and meets with his grandmother. He does not reach the ruler, but meets with the minister. No error.

Siu: The man fails to meet the chief executive, but goes about his duties among other officials. He does not force his way into the limelight.

[First he should get to ministerial level before going up to the Presidency.]

5 Wu: There are dense clouds, but no rain coming from our western countryside. **The duke gets what is in the cave with an arrow tied to a string.** [This implies that he solicits and gets the assistance of his correlate, the second yin line.]

### Derived 28 Excessive Greatness, Law of Karma

Wilhelm/Baynes: Preponderance of the Great. The ridgepole sags to the breaking point.

It furthers one to have somewhere to go. Success.

IMAGE: Legge: The image of trees beneath a marsh forms Critical Mass. The superior man, in accordance with this, fearlessly stands alone, and stays retired from the world without regret.

- 62 is a giant Water with paired lines: danger, darkness, depth, destiny
- L2 & L5 are both center-leadership lines, and both changing. Cast about leadership.
- #28 is led by two outside lines at bottom and top, leadership and people distant

### ***Notes***

- PAST 37 Kennedy family lineage important; strong relationships and connections
- PRIM 62 Fruitional; tricky; better to fly low than high at this time
- CL 2 Does not get to same level as his father & uncle but possibly ministerial
- CL 5 Shoots arrow into cave where target cannot be seen; can only be retrieved with help from L2 – ministerial level again.
- FUT 55 Like sun at midday, abundance; fire below, lightning above; a special time
- DER 28 Very powerful confluence of energies but not necessarily stable – too much
- NUC 28: Second time in cluster, so important. The times are excessive. Special.

### ***Summation***

HEM: Heaven is about subtle, intimate connection and Earth about slow, gradual progress. Not a time for rapid advancement. Man is riding excessive energy; America is politically nuclear these days, volatile and excessive. Bobby's approach should be to fly low and not shoot for the highest office, rather into a cave to find hidden game therein. Perhaps he can have a ministerial level position to root out corruption, which his background justifies.
